Dr. David Isen

David's dental clinic is an anaesthesia-based practice in Toronto treating patients who require intravenous sedation or advanced techniques in local anaesthesia. Many of these people have special medical needs or are dental phobic.

David is the current president of the Ontario Dental Society of Anaesthesiology. As a lecturer, he holds positions with the University of Western Ontario's continuing education program and formerly at the University of Toronto. David has given almost two hundred presentations throughout North America and around the world. He is a Fellow of the Academy of Dentistry International, The International College of Dentists and The Pierre Fauchard Academy.

Course Outline:

This course will review methods of reducing the likelihood that a medical emergency will occur. As well, the use of emergency drugs will be discussed along with a discussion regarding the newest protocols for basic CPR and the use of an automated external defibrillator. Finally, some specific emergencies will be reviewed and suggestions as to how to organize an emergency kit, so as to be prepared even months down the road, will be provided

Digital Technology in Dental Office

Speaker: Dr. Gary Severance

Dr. Gary Severance

Dr. Gary Severance is a 1987 graduate of the University Of Minnesota School Of Dentistry and Chief Marketing Officer for E4D Technologies. Gary has worked throughout his career with several innovative dental companies assisting in the development and commercialization of products that improve dentistry through quality, efficiency and productivity. An esteemed speaker and author, Dr. Severance also lectures on the latest technological trends in digital dentistry.

Course Outline:

Dr. Severance will compare existing impression techniques with the digital scanning technologies and including the ease of using the e4D scanning machine.

Electronic Health Records in Dentistry

Speaker: Dr. Glazel and Dr. Rollin Matsui

Dr. Rollin Matsui

Dr. Rollin Matsui received his dental degree from University of Toronto in 1979 and a law degree from Osgoode Hall Law School, York University

in 1991. He gives dental legal lectures at the Faculty of Dentistry at University of Toronto. In addition he has a private law practise specialising in dental aspects of the law.

Dr. Jeff Glazel

Dr. Glazel developed, designed, implemented my DDS network; a secure web based dental referral and consultation network. The my DDS network

platform has been utilized in a health care project in Ontario to facilitate the secure electronic transfer of patient information from hospitals to medical doctors' offices. He lectures extensively on electronic record keeping issues world wide.

Course Outline:

In this course, Dr. Matsui will talk on what we as dentist should know what is the definition of electronic record and what the college is looking for in terms of these records.

Dr. Glazel will discuss various platforms including the my DDS network platform for information storage. He will also discuss the implications of the Anti Spam legislation .

**Dr. Michael Gardner
and Dr. Greg Anderson**

Dr. Michael Gardner received his DDS from the Faculty of Dentistry, University of Toronto in 1986. While maintaining a private practice, he joined the RCDSO staff in 1996 on a part-time basis, serving as an Investigator and Monitoring Officer, and in 1998, he became the College's first Professional Practice Advisor. In 2000, Dr. Gardner left private practice to join the full-time staff of the College, and was soon appointed Assistant to the Registrar in the Complaints, Investigations and Hearings area of the College. In 2009, Dr. Gardner was promoted and is currently serving as the College's Manager of Quality Assurance.

Dr. Greg Anderson also received his DDS from the Faculty of Dentistry, University of Toronto in 1986. He practiced in Sault Ste. Marie for over 20 years before returning to the Toronto area in 2007. In addition to associating in private practice, Dr. Anderson became a part-time clinical instructor at the Faculty of Dentistry, University of Toronto and in January 2011, was appointed Assistant Professor of Restorative Dentistry. He later served as the Interim Director of Clinics. Dr. Anderson joined the full-time staff of the College in January 2012 as the Practice Enhancement Consultant and continues to hold a part-time Faculty position at the rank of Lecturer in the Comprehensive Care Program.

Course Outline:

Professional, ethical and legal responsibilities require that a complete chart and record documenting all aspects of each patient's dental care be maintained. A detailed chart accurately records the patient's dental condition when first presenting at the office, assists and supports a proper diagnosis and treatment planning, and provides a clear description of the patient's on-going care. Good records are also the dentist's best defence in the event of a formal complaint or lawsuit. In this presentation, RCDSO representatives offer guidance and practical advice in understanding the dental recordkeeping requirements in Ontario.

Learning Objectives: At the end of the session, participants will be able to:

- Understand and appreciate the reasons for keeping good patient records
- Describe the requirements for various components of a complete chart
- Identify problem areas and take advantage of helpful tips to keeping better patient records

CPR Recertification

Speaker: Dr. Neil Gajjar

Dr. Neil J. Gajjar

BSc., DDS

Dr. Gajjar lectures on managing medical emergencies in the dental office, has been a lecturer of oral pathology and clinical instructor at the Canadian Academy of Dental Hygiene, and has served as a clinical instructor in the Oral Diagnosis and Emergency clinics at the University of Toronto, Faculty of Dentistry. Dr. Gajjar is a Master of the Academy of General Dentistry, a Fellow of the Academy of Dentistry International, a Fellow of the Pierre Fauchard Academy, a Fellow of the American College of Dentists, and a Regent of the International College of Dentists. He has served as a Councillor, on the PLP committee, and on the Disciplines committee of the Royal College of Dental Surgeons of Ontario. He is a Clinical Examiner for the NDEB, is certified in IV sedation and serves as the official dentist for the Miss India Canada Pageant and Suhaag Publication Group.

Course Outline:

CPR & Medical Emergencies in the Dental Office

Dr. Gajjar will review the steps to follow when you encounter a medical emergency in your office. A recertification of CPR for health care providers will be offered as well as the use of an AED for targeted responders. Yearly CPR renewal is required for all office staff and this course presents an excellent opportunity for members of the dental office to stay current with the new changes in CPR protocol.
