Orthodontic Diagnosis, treatment Planning & Timing for Success. "How to Avoid Failures"

Speaker Dr. Mark B. Eckler

Dr. Mark B. Eckler

Dr. Mark Eckler is a certified orthodontist. He works with his father, Dr. Gord Eckler and partner, Dr. Shane Black in Mississauga and Brampton. Their practice started over 40 years ago. Mark's dental education was received at the University Of Western Ontario School Of Dentistry, where he graduated in 1993. Mark attended McGill University Multi-Disciplinary Residency Program before continuing on to the St. Louis University's Graduate Orthodontic Program in 1997.

To stay current in all areas of dentistry focusing on orthodontics Mark provides the dental community with continuing education courses on customer service and preventative orthodontics in an attempt to provide patients with the best treatments and service we possibly can.

Course Details :

Mark's objective for the evening will be to impart the knowledge required to help his audience learn how to identify potential successful orthodontic cases. This is not strictly a clinical talk. It will include how to be profitable, efficient, exceed patient expectations and simultaneously achieve great treatment outcomes. He will highlight why effective communication and orthodontic treatment timing are crucial. Mark will share with you his experiences, some cases and orthodontic philosophy including how to strive for ideal occlusion and facial esthetics.

RCDSO Night - "Defensive Dentistry"

Speaker: Dr. Mike Gardner

Speaker: Ms. Rene Brewer

Dr. Michael Gardner

Ms. Rene Brewer

Dr. Michael Gardner Manager of the RCDSO College's Quality Assurance Program.

Ms. Rene Brewer, Manager of the RCDSO College's Professional Liability Program received her LL.B. with Great Distinction from McGill University in 1994. Before joining the RCDSO as Manager of the Professional Liability Program in 2011, she was a partner at a national law firm where she specialized in health law. She is a member of both the Ontario and British Columbia bars

Course Details :

How to practise defensive Dentistry....

The practice of Dentistry can be stressful at times and it is therefore important that dentists implement strategies and protocols into their everyday routines to minimize potential problems.

One important risk management strategy is to keep detailed and accurate records according the College's record keeping guidelines and recommendations.

In addition, using everyday examples from PLP files, Ms. Rene Brewer will also be providing other complaints/ malpractice prevention advice to help you avoid common practice related concerns and achieve a safer and happier practice.

Ms. Bracic

Mr. Mike Lakhani

"Keep More of What You Earn, by Controlling the Controllable"

This dynamic and interactive seminar will be a welcome change to address specific topics of relevance to align your dental practice with your life.

The power of the TMTD wealth architecture team provides easy and useful strategies and objective advice to help you to restructure your wealth planning by controlling the controllable

"What Every Doctor Should Know About the Top Five Tools for Their Employee Contracts"

In 2003, Ms. Bracic opened MBC Legal, a human resources firm and subsequently MBC Information Solutions Inc., a legal information company. MBC has an extremely micro-niche focus: they practice only employment law, only on the employer side and very predominantly for health-care sector employers (doctors, dentists, veterinarians, etc.) That unique laser-focus provides unparalleled benefits for MBC clients.

Endodontics: Review of Current Concepts and Technologies in Endodontics
Speaker: Dr. Manfred Freidman

Dr. Manfred Freidman

Dr. Friedman graduated from the University of Witwatersrand in 1971. He then returned as a faculty member to direct the Endodontics program from 1979-1987.

Dr. Friedman became a faculty member at the University of Western Ontario in 1987 and has been the director of the Endodontic undergraduate program since 1998.

As a lecturer, Dr. Friedman has lectured extensively at many local, provincial, national and international programs. In addition, he also maintains a private practice in London, Ontario.

Course Details:

- Diagnostic dilemma's in endodontics, including cracked tooth syndrome
- New methodologies for disinfecting root canal systems, including current techniques for regenerating pulp in the non - vital young traumatized open apex tooth.
- Review of mechanized shaping of root Canada systems with specific emphasis on "Single instrument" shaping.
- Report on 10 years of direct pulp capping with MTA.

MAXIMUM 30 PARTICIPANTS

(Reserved on first come first served basis)

There is a \$189.00 fee to register for this course for SADA Members.

**Dr. Vinay Bhide**

Dr. Vinay Bhide is a board certified Periodontist who provides the full scope of surgical periodontal and dental implant therapy. In addition to the conventional periodontal procedures such as pocket reduction and crown lengthening, Dr. Bhide has a special interest in esthetic and reconstructive periodontics; procedures involved include soft tissue grafting for correction of gingival recession, periodontal regeneration, and pre-prosthetic site development including alveolar ridge augmentation, maxillary sinus floor augmentation (both direct and indirect), and guided bone regeneration (GBR).

Dr. Bhide earned this DDS from the University of Toronto in 2001, and subsequently completed a one year internship at Mount Sinai Hospital in Toronto. He completed his Master of Science and specialty training in Periodontology at the University of Toronto in 2005.

Course Details:***Peri-implantitis – Diagnosis, Treatment, and Prevention Strategies***

With dental implants, complications such as peri-implantitis have also been reported with higher incidence. What is a clinician to do when faced with the challenge of diagnosing and treating peri-implant mucosal inflammation and bone loss? This presentation will review the current concepts on the diagnosis of peri-implantitis and various treatment strategies. Emphasis will be placed on the prevention of peri-implantitis and proper maintenance protocols for implant patients.
